4. Now wait for the files to be extracted. All 4 files will be extracted automatically and you do **NOT** need to extract each file separately. This process may take an hour or longer depending on your PC's speed.

5. Once the extraction process is complete, you should have a folder call "Mercedes Virtual PC". This folder should be 37GB in size.

6. RESTART your PC.

7. Open the "Mercedes Virtual PC" folder and double click the file with the three blue squares icon called "Mercedes Virtual PC.vmx". Your Mercedes repair software will now open.

8. If a prompt asks if you have moved or copied this program, choose copied.

9. Read the pdf user instructions in the virtual machine before opening the Mercedes manual.
